Block sign-in

JosefEkdahl@ecutbildning23.onmicrosoft.com

✓

Josef Ekdahl is now blocked from signing in. They'll automatically be signed out of all Microsoft services within 60 minutes.

Blocking someone prevents anyone from signing in as this user, and is a good idea when you think their password or username may have been compromised. When you block someone, it immediately stops any new sign-ins for that account, and if they're signed in, they'll be automatically signed out from all Microsoft services within 60 minutes.

This won't stop the account from receiving mail, and doesn't delete any data.

☒ Block this user from signing in

Here I deactivate Josfe account

Manage email forwarding

✓

Mailbox email forwarding info updated

ⓘ

If you need to automatically forward messages to external recipients, Microsoft's default outbound spam policy doesn't allow it.

[Learn more about controlling automatic external email forwarding](#)

Automatic email forwarding to external recipients makes your organization vulnerable to takeover attacks. If you choose to do it anyway, you'll be subject to our anti-spam outbound policy that allows it only for users who need it.

[Manage outbound anti-spam policies](#)

☒ Forward all emails sent to this mailbox

The mailbox owner will be able to view and change these forwarding settings.

Forwarding email address *

MiaMolin@ecutbildning23.onmicrosoft.com

☒ Keep a copy of forwarded email in this mailbox

here I created a shared mailbox for Mari and Maya

Resources

Admins can manage two types of resources: room mailboxes and equipment mailboxes. Room mailboxes are assigned to a physical location, such as a conference room or auditorium. When an admin creates room mailboxes, users can reserve rooms by including them in meeting requests. Equipment mailboxes are assigned to resources that aren't location specific, such as computers, projectors or company cars, allowing users to reserve them in meeting requests.
